

VEER KUNWAR SINGH

veerkunwarsingh19296@gmail.com | +91-9140569267 | GitHub | LinkedIn

Profile Summary

Passionate Computer Science Engineering student with strong interest in Full Stack Web Development, Problem Solving, and AI-powered solutions. Experienced in building responsive MERN stack applications and innovative hardware-based projects. Quick learner with leadership experience in organizing technical events and collaborating in team environments.

Technical Skills

Programming Languages: Java, Python, C, C++

Frontend Development: HTML, CSS, JavaScript, Tailwind CSS, React.js

Backend Development: Node.js, Express.js, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Arduino

Core Subjects: Data Structures & Algorithms, DBMS, OOPs, Operating Systems

Education

Roorkee Institute of Technology

Bachelor of Technology in Computer Science & Engineering

Expected 2027

Roorkee, India

Maa Durga Ji Senior Secondary Vidyalaya

Senior Secondary (CBSE)

2023

Uttar Pradesh, India

Projects

Medicare — Doctor Appointment Application

Live Demo

- Developed a full-stack healthcare platform for online doctor appointment booking and management.
- Implemented authentication system, doctor scheduling, appointment management, and admin dashboard features.
- Built responsive user interface using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Integrated secure REST APIs and optimized database handling for smooth appointment workflows.

Sensor-Based Smart Glasses for Visually Impaired

- Designed smart wearable glasses using ultrasonic sensors for obstacle detection and navigation support.
- Programmed Arduino microcontroller to provide real-time obstacle alerts within a 10-meter range.
- Enhanced safety and spatial awareness for visually impaired users through sensor-based detection.
- Secured Top 3 position in a college innovation competition for creativity and practical implementation.

Weather Forecasting Web Application

GitHub

- Built a responsive weather forecasting application using HTML, CSS, JavaScript, and OpenWeatherMap API.
- Integrated geolocation and city-based search functionality for real-time weather updates.
- Improved mobile responsiveness, API handling, and overall user experience with clean UI design.

Coursework

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems
- Computer Networks

Leadership & Activities

- Organized technical events including Blind Coding, TechnoMax, and Treasure Hunt.
- Led a team of 10+ volunteers and coordinated events with 200+ student participants.
- Managed event promotions, poster designing, registrations, and social media campaigns.
- Demonstrated leadership, teamwork, communication, and event management skills.

Achievements

- Secured Top 3 position in a college innovation competition for Smart Glasses project.
- Actively participated in technical competitions, coding events, and collaborative development activities.
